

Principal Designer – Darwin

The Opportunity

If you're seeking a new career opportunity and enjoy the outdoors, this role in Darwin could be for you! It offers:

- > A lifestyle-friendly location and work environment
- > Opportunity to lead & deliver meaningful civil infrastructure projects
- > A supportive team focused on results, not bureaucracy

The Company

We are a well-established, multi-disciplinary engineering and design consultancy. We are known for delivering high-quality engineering and project management services, our work includes urban and regional land development, housing and civil infrastructure for private and public sector clients.

Key Responsibilities

You will lead the detailed design, documentation and modelling of major and minor roadworks, local area traffic management, subdivisions, commercial building developments and general civil engineering.

Key Skills & Attributes

You will ideally have:

- > Advanced Diploma Civil Engineering (or equivalent)
- > Over 20 years of consultancy design experience
- > Understanding of Austroads and relevant standards
- > Extensive experience with 12D Model and AutoCAD
- > Strong experience in the design of major and minor roadworks, land development, earthworks and stormwater drainage.
- > Ability to undertake designs, manage projects and a small design team
- > Ability to lead and coach designers and drafters
- > Ability to work with limited direction

What's on Offer

This is your opportunity to join a forward-thinking company that values your professional and personal growth.

On offer is a competitive salary package including 5 weeks annual leave, flexible work arrangements and relocation assistance available if required.
